This is the fourth office action for application number 10/813,463, Device for Leading and Holding Electrical Lines in a Swivel Region of Doors, filed on March 29, 2004.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of a device for leading and holding electrical lines in a swivel region of doors, the device comprising first and second tubular portions each having a respective sleeve region shaped in the form of a crank, the sleeve regions being joined together rotatably and rotating with respect to one another, the first and second portions having a lead-through region, the lead-through regions of the first and second portions together providing a passage through which at least one electrical line can be passed, the sleeve region of the second portion having an interior with a substantially constant diameter and the sleeve region of the first portion having a step within the interior of the first portion keeping the lead-through region through the first and second portions substantially free of diameter changes, and elements preventing axial shifting of the sleeve region of the second portion disposed at the sleeve region of the first portion and wherein the sleeve region of the first portion has one extent forming an open end of the first portion and another extent extending from the one extent, the one extent of the sleeve region of the first portion receiving the sleeve region of the second portion inserted therein so that the one extent of the sleeve region of the first portion surrounds the sleeve region of the second portion, and the step of the sleeve region of the first portion forming a transition from the one extent of the sleeve region of the first portion to the other extent of the sleeve region

of the first portion, now included in independent claim 17, in combination with the other elements recited in the claim, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
